## Summary

Entrepreneurial IT Architecture student looking for opportunities to create value. I have a passion for learning and solving problems through a multidisciplinary approach. Ready for a time filled with exciting new challenges!

## Experience

### Student Software Developer

Mjølner Informatics / May 2023 - Now

- Working on a tool for customer agents so they easily can find relevant information/data about its customers.
- Developed API services in C# .NET and frontend in ReactJS.

### Software Engineering Intern

FINN / January 2023 - May 2023

- Worked on the Fleet Management team to streamline operations of cars in subscription including incidents, appraisals, and invoicing.
- Developed AWS lambda functions using both Golang and TypeScript.

### Student QA Engineer

Mjølner Informatics / July 2022 - January 2023

- Implemented a CI/CD pipeline with Azure DevOps for automated mocking and contract testing APIs of a Microservices architecture.
- Worked with a team of Test Managers and Quality Assurance engineers to create a better standard of quality assurance across the organization.
- Introduced and helped newcomers of the Test Management team to the world of web development and programming.

## Side Projects

Developing AI tools using Langchain, Sveltekit, and Pinecone to help accountants be more effective and save time. / Wisory.co

Made a Chrome Extension using Svelte, TypeScript, HTML and Tailwind CSS to increase the productivity of employees by reducing the time it takes to find online resources like files and links. / Lenked

Build a platform for dog services using Sveltekit, Tailwind CSS, and Postgres. / Wuffie.dk

## Technical skills

### Primary stack

JavaScript, TypeScript, NodeJS, Svelte, Tailwind, Go

### Experience with

C#, PostgreSQL, Microsoft Azure, Git, Bash, Azure DevOps, Docker, Postman, AWS

## Soft skills

- Quick and Perpetual Learner interested in a wide spectrum of fields and topics.
- Effectively explaining / communicating concepts and technical topics.
- Aware of what I know well and when I have an opportunity to learn.
- Team-player who can also work independently

## Education

### Bachelor of IT Architecture

Business School Aarhus  
January 2021 - Present

### Computer Science

Aarhus University  
August 2019 - January 2021
